comprehension)

PERSONAL PROFILE

I'm a 18 years old frontend web developer with 2 years of experience in programming. I also have experience with design, mockups, and mobile apps development. I love to learn new technologies and improve my skills. I'm very self-taught

WORK EXPERIENCE

Web Developer

Freelancer | January 2020 - Present

- I handle entire projects on my own.
- I work in the design, functional analysis, code, deployment, maintenance, improvement and optimization of my apps.
- I take care of keeping everything organized and documented.

Projects:

Guzzi Autos - concessionaire and sale of automotive supplies:

- Responsible of the entire design and developement of a web app for the company.
- Improved the perfomance of the communication with the cleintele.
- Built a database for saving comments from the clients.
- Automatic deploys.
- Developed a store within the app for the sale of supplies.
- Built an admin page for the management of the main web.

Skills: NextJS, Firebase, SCSS, Styled JSX, SSR, Figma.

Rincon de Luz - ONG:

- Responsible of the entire design and development of the app.
- Built a database for uploading events, articles, comments and new causes to donate from the admin section.
- Gave the possibility of joining the ONG by sending an email, from which a username and password created by the admin are received.
- Implementation of a map where you can see the ONG location.
- Automatic deploys.

Skills: React, Leaflet, SCSS, Firebase, Figma.

Social Media App

- Responsible of the entire design and development of the app.
- Built a database based on GraphQL and MongoDB for handling posts, messages, users, and comments.
- Developed a backend to implement SSR.
- Uploaded backend and frontend by separate in Github.
- Developed a real-time chat.

Skills: React, NodeJS, Express, MongoDB, GraphQL, WebSockets, MaterialUI.
